

Digital Health Canada MeetUps

Speed Networking

Fast-paced and lively, speed networking is the business version of speed dating, and can provide quick exposure to a lot of people in a short timeframe.

Speed networking follows a “round robin” format with participants rotating from meeting to meeting at the sound of a bell. Each participant gets a little time (from 5 to 15 minutes) for introductions and questions. Make the most of a speed networking event with the following preparations:

- **Practice your elevator pitch.** What’s an elevator pitch? A super-quick summary of who you are, what you do, and what you want to learn from the event. It should be delivered in the time span of an elevator ride, or approximately thirty seconds to two minutes.
- **Bring business cards.** Make sure your cards have your basic contact information as well as a reference to your LinkedIn profile.
- **Have some questions ready.** Engage your Speed Networking partners with questions that demonstrate a genuine interest. Ask about challenging aspects of their job, industry trends and opportunities, or what skills they have that make them successful.

Digital Health Canada MeetUps: Informal gatherings for digital health professionals

Learn and network with digital health professionals from your area in a relaxed atmosphere, with snacks, drinks, and an activity such as speed networking or a presentation or panel featuring local digital health industry leaders.

Learn something new.
Meet someone new.
Have a good time.
