# Health Informatics (HI) Professionals across Canada have been learning about HI from Digital Health Canada since 1975.

Digital Health Canada provides a deep understanding of the Canadian healthcare system and the critical topics underlying HI and CPHIMS-CA:

- How information technology intersects with healthcare leadership and management
- The importance of privacy and security in healthcare delivery
- How to analyze and design the optimal system for any healthcare environment

Organizations with the foresight to invest in enterprise-wide HI education can rely on Digital Health Canada to deliver a complete solution built on experience and an extensive body of knowledge. Only Digital Health Canada offers instruction from industry experts combined with proven supporting materials and multiple exam sittings.

## Understand the value of CPHIMS-CA

Facilitating the achievement of the CPHIMS-CA credential (valid in Canada and the U.S.) is one of the things Digital Health Canada does best. The Certified Professional in Healthcare Information and Management Systems – Canada credential validates professional competency and proves the ability of a Health Informatics (HI) professional to perform safely and effectively in a broad range of practice settings. Organizations with CPHIMS-CA certified professionals find it helps:

- Deliver healthcare innovation projects with greater impact/lower costs
- Contribute to patient safety and healthcare delivery accountability
- Demonstrate professional competency in globally respected HI criteria
- Raise the profile of HI as a profession
- Recruit and retain top-quality HI staff

“CPHIMS-CA definitely helps open doors in the vendor community. It sends a clear message to clients that they are dealing with professionals who have demonstrated competency to respected national and international criteria in the Health Informatics field.”

– SCOTT MCMILLAN, CPHIMS-CA, PRESIDENT/PDG AT CERCLE GROUP

Digital Health Canada fosters network growth and connection; brings together ideas from multiple segments for incubation and advocacy; supports members through professional development at the individual and organizational level; and advocates for the Canadian digital health industry.
