

The background of the entire page is a photograph of a modern building's interior. On the left, a large, white, wavy sculpture resembling a stylized face or a series of overlapping loops is mounted on the wall. To the right, a vertical garden with various green plants is visible. The building has large glass windows and a high ceiling with recessed lighting. The overall atmosphere is bright and contemporary.

# CHIEF FALL SYMPOSIUM 2018

OCTOBER 19 + 20, 2018  
VANTAGE VENUES  
150 KING ST WEST TORONTO

# CHIEF MEMBER ORGANIZATIONS

# WELCOME

Welcome to the CHIEF Fall Symposium 2018.

As an industry leader and member of CHIEF: Canada's Health Informatics Executive Forum, you will find the next two days offer unique opportunities to network with your peers in the Canadian digital health community; to contribute to the ongoing conversation about digital health in Canada; and to collaborate as we work to solve complex healthcare issues together as a group.

I look forward to speaking with each of you about how CHIEF members can continue to offer their expertise in setting the agenda for the effective use of information management to improve health and healthcare in Canada.

A handwritten signature in black ink, appearing to read "Mark Casselman".

Mark Casselman  
Digital Health Canada

# FRIDAY, OCTOBER 19

8am **Registration and Breakfast**

9am **Welcome and Setting the Stage**

*Mark Casselman, CEO, Digital Health Canada*

9:15am **KEYNOTE Report from Canada's Economic Strategy Tables: The Innovation and Competitiveness Imperative (Health and Biosciences)**

CHIEFs will hear highlights from the report and discuss ways to position Canada as a global leader in health/bio-sciences innovation. Key topics include driving long-term sustainable growth, collaboration of health/bio-sciences/tech companies and partners, and a summary of report priority themes and recommendations. As implementers and producers of digital health solutions and disruptive technologies such as artificial intelligence and big data analytics, CHIEFs will identify opportunities to collaborate and contribute to the development of a national digital health strategy.

*Huda Idrees; Founder and CEO, Dot Health; Member, Health/Bio-sciences Economic Strategy Table*

10:15am **Networking Lounge and Refreshments**

10:45am **PANEL Enterprise Innovation**

Health delivery organizations face challenges as they drive forward with digital transformation of the traditional enterprise model and integration of entrepreneurial care delivery models and clinical innovations. Panel members share experiences and insights about their organizational journey, partnerships and collaborations, and enterprise approach to innovation to solve complex health care challenges now and in the future.

*Jennifer Sheils, CIO, Horizon Health Network; Sandra Ketchen, SVP Operations, SE Health; Ted Scott, VP, Research & Chief Innovation Officer, Hamilton Health Sciences Centre*

11:45am **CHIEF Member Announcements and Updates**

12pm **Networking Lunch**

1pm **PANEL Population Health and Precision Medicine: Leveraging Data to Improve Health Delivery**

CHIEFs are faced with challenges to address the exponential growth in health data and to utilize these data assets effectively to improve care delivery, outcomes, and system planning and evaluation. Access to large data sets, predictive modelling, strategic analytics, and shifts in delivery of care are enabling improvements in population health and precision medicine. Our panel shares their experiences with population health and precision medicine: program delivery, organizational preparation and key assets, and defining emerging skills for professionals.

*Shiran Isaacksz, Sr Director, Regional and Provincial Portfolio, University Health Network; Mark Boudreau, VP Strategy and Business Development, Orion Health; Jason Garay, VP, Analytics and Informatics, Cancer Care Ontario*

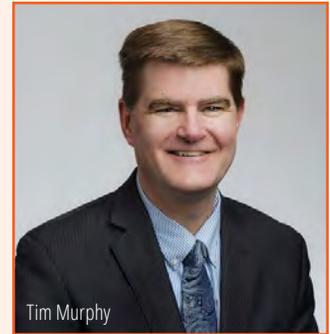

# FRIDAY, OCTOBER 19

## 1:45pm **PANEL** Provincial & National Initiatives: Unique Contexts, Shared Vision, Common Challenges

This panel highlights digital health initiatives and discusses lessons learned from work across Canada. CHIEFs will engage in facilitated discussion to add to the panel conversation and specific examples. While there are unique contextual elements that frame digital health initiatives in each jurisdiction in Canada, the vision and approach to common challenges is often very similar. Discussion will identify challenges and opportunities for national collaboration related to common standards in areas such as service delivery, identity management, and more.

*Tim Murphy, Vice President, Provincial Platforms & SPOR, Alberta Innovates; Michael Hillmer, Executive Director - Information Management, Data, and Analytics at Ontario Ministry of Health and Long-Term Care; Eric Sutherland, Executive Director, Data Governance Strategy, Canadian Institute for Health Information*

Tim Murphy

Michael Hillmer

Eric Sutherland

## 2:30pm **Networking Lounge and Refreshments**

### 3pm **ROUNDTABLE WORKING GROUPS**

CHIEFs will join facilitated working groups to address challenges and opportunities for national collaboration related to identity management, service delivery, common standards.

### 3:45pm **FACILITATED DISCUSSION**

Discussion to share and present back working group solutions and opportunities for national collaboration related to identity management, service delivery, common standards.

*Facilitator: Eric Sutherland, Executive Director, Data Governance Strategy, Canadian Institute for Health Information*

### 4:30pm **Close and Set the Stage for Dinner/Tomorrow**

*Mark Casselman, CEO, Digital Health Canada*

## 5-7:30pm **Networking Dinner**

*Earl's Kitchen and Bar, 150 King Street West*

Earl's Kitchen and Bar

## Introducing Digital Health Canada CASE STUDIES

- New benefit for Digital Health Canada Members!
- Highlight your team's efforts; share solutions to common digital health challenges; publish results from your organization's latest successful implementation or initiative
- Professional layout and formatting by Digital Health Canada
- Printable PDF posted to digitalhealthcanada.com Resource Library

MEMBER CASE STUDY

# SATURDAY, OCTOBER 20

## 8am Registration and Breakfast

8:45am Morning Welcome, Recap from Friday, and Setting the Stage

*Mark Casselman, CEO, Digital Health Canada*

## 9am PANEL Digital Health Hot Topic: Part 1

This discussion looks at the recent announcement by new entrants and tech giants Amazon, Microsoft and Oracle to drive progress towards true health data interoperability. This panel will identify foundational elements, current and future partners to participate, and describe how innovation and diversity of user choice will drive greater interoperability and portability.

*Peter Jones, Industry Lead-Healthcare, Microsoft Canada; Patrick Coombs, Worldwide Technical Leader, Healthcare and Life Sciences, Amazon Web Services; Rebecca Laborde, Lead Product Strategist Healthcare and Master Principal Scientist for Precision Medicine, Oracle*

## 9:45am PANEL Digital Health Hot Topic: Part 2

Data portability is an important, simple concept and also a complex technology challenge. Panel members from solution providers with experience in the traditional health software space will join in the discussion to focus on what the industry is doing (and needs to do) to connect data for Canadians now and in the future.

*Kashif Rathore, VP Interoperability, Cerner; Peter Smith, EVP, Strata Health*

## 10:30am Networking Lounge and Refreshments

### 11am HOT TOPIC BREAKOUT SESSIONS

Breakout groups will dive into the panel discussion and foundational elements, outline current and future partners to participate, and describe important next steps and commitments with regards to innovation and diversity of user choice to move forward with greater interoperability and data portability for consumers.

## 12pm Networking Lunch

### 12:45pm CLOSING KEYNOTE

#### The Clinician Innovator and The Future of Healthcare

Dr. R. Sacha Bhatia, Director of the Institute for Health System Solutions and Virtual Care (WIHV) at Women's College Hospital shares insights on corporate innovation, policy and future of health, through his lens as clinician-innovator and leader of an innovation laboratory that develops and tests new ideas, new programs and new policy approaches in the world of ambulatory care, and then helps to scale them up across Ontario and beyond.

### 1:30pm Closing Remarks

*Mark Casselman, CEO, Digital Health Canada*

“CHIEF brings together digital health leaders from across Canada—public sector, private sector, and government—in a space where we can discuss solutions to the challenges we all face in a rapidly changing industry. It is critical that we foster these trusted relationships between leaders to deliver real benefits for the patients and providers, organizations, and the healthcare system. We need a place for open dialogue and alignment of leadership priorities. CHIEF is that place.”

- DON SCHICK, PRESIDENT AND CEO, STRATA HEALTH SOLUTIONS

Digital Health Canada connects, inspires, and educates the digital health professionals creating the future of health in Canada. Our members are a diverse community of accomplished, influential professionals working to make a difference in advancing healthcare through information technology. Digital Health Canada fosters network growth and connection; brings together ideas from multiple segments for incubation and advocacy; supports members through professional development at the individual and organizational level; and advocates for the Canadian digital health industry.
