³ CA Exams (the Canadian portion of the CPHIMS-CA credential) may be written at AMP testing centres at any time (goamp.com). CPHIMS Exams may be written at Prometric Testing centres (www.prometric.com).

Health Informatics (HI) Professionals across Canada have been learning about HI from Digital Health Canada since 1975.

Digital Health Canada provides a deep understanding of the Canadian healthcare system and the critical topics underlying HI and CPHIMS-CA:

- How information technology intersects with healthcare leadership and management
- The importance of privacy and security in healthcare delivery
- How to analyze and design the optimal system for any healthcare environment

Organizations with the foresight to invest in enterprise-wide HI education can rely on Digital Health Canada to deliver a complete solution built on experience and an extensive body of knowledge. Only Digital Health Canada offers instruction from industry experts combined with proven supporting materials and multiple exam sittings.

Understand the value of CPHIMS-CA

Facilitating the achievement of the CPHIMS-CA credential (valid in Canada and the U.S.) is one of the things Digital Health Canada does best. The Certified Professional in Healthcare Information and Management Systems – Canada credential validates professional competency and proves the ability of a Health Informatics (HI) professional to perform safely and effectively in a broad range of practice settings. Organizations with CPHIMS-CA certified professionals find it helps:

- Deliver healthcare innovation projects with greater impact/lower costs
- Contribute to patient safety and healthcare delivery accountability
- Demonstrate professional competency in globally respected HI criteria
- Raise the profile of HI as a profession
- Recruit and retain top-quality HI staff

“CPHIMS-CA definitely helps open doors in the vendor community. It sends a clear message to clients that they are dealing with professionals who have demonstrated competency to respected national and international criteria in the Health Informatics field.”

– SCOTT MCMILLAN, CPHIMS-CA, PRESIDENT/PDG AT CERCLE GROUP

Digital Health Canada fosters network growth and connection; brings together ideas from multiple segments for incubation and advocacy; supports members through professional development at the individual and organizational level; and advocates for the Canadian digital health industry.
