Morning Program

8am Networking Breakfast

8:45am Welcome and Opening Remarks

Sherry Nicholaichuk, President, ANHIX (Alberta Health Services)
Mark Casselman, CEO, Digital Health Canada

9:00am KEYNOTE Unlocking the Full Potential of Innovation in Healthcare

Dr. Alexandra Greenhill, CEO & Chief Medical Officer, Careteam

9:45am PANEL ONE Artificial Intelligence and Machine Learning for Health

This panel will discuss leading-edge advancements in artificial intelligence and data-based machine learning to make critical advancements in the provision of healthcare. Panelists will introduce some of the latest work and explore future possibilities for further integration of smart technology in healthcare.

Almin Surani, Special Advisor, Eastern Canada, AMII, University of Alberta
Dr. Naweed Syed, Professor, University of Calgary
Michael Grahame, Product Manager, Strata Health Solutions
Dr. Alexandra Greenhill (Moderator)

10:45am Networking Break

11:15am PANEL TWO Advancing Healthcare Through Digital Innovation

This joint presentation will start with an update on current activities at the Ward of the 21st Century (W21C), including information on human factors for healthcare adoption and other success stories between the industry and clinical setting. We will then hear about the impressive results using Virtual Reality in wound care at the Rockyview General Hospital in Calgary.

Greg Hallihan, Human Factors Program Manager, W21C Research and Innovation Centre
Don Anderson, Clinical Telehealth Facilitator, Rockyview General Hospital, AHS
Jaelyn Frank, Wound Care Physiotherapist, Rockyview General Hospital

12:15pm Networking Lunch + Presentation: Canada Health Infoway – Access 2022

Jim Mickelson, Executive Director, Western Canada, Canada Health Infoway

Afternoon Program

1:30pm PRESENTATION AND DISCUSSION

Connect Care: Bridging Technology and the Clinical Setting

This presentation provides a short update on the progress of this exciting project and will share how clinical users, patients and family advisors are involved in the decision making. Front-line experiences, including the patient perspective, show how this will change practice processes and clinical user experience working with patients.

Barb Kathol, Senior Program Officer, Clinical Information System, Connect Care, Alberta Health Services (Speaker and Moderator)

Barbara Jones, Clinical Nurse Specialist, Cardiac Sciences, Foothills Medical Centre

Tricia Miller, South Zone Manager, Children's Allied Health and Speech Language Pathology and Audiology

Ryan Magnussen, Patient Advisor, Alberta Health Services

2:45pm Networking Break

3:15pm PANEL THREE Using Technology to Measure Health Equity and Advance Population Health

This panel will explore broad components of health equity and how we can measure and report on them. It will explore how population health, and especially social determinants of health, impact the underlying ethical and pragmatic drivers for equitable access to healthcare. We will explore how technology is impacting our understanding of population health and improving health equity.

Dr. Kenneth Moselle, Enterprise Information Architect, Vancouver Island Health Authority

Regan Paddington, Director, Clinical Operations, Highland Primary Care Network

Dr. Scott Wilson, Neurologist

Peter Smith, VP Technology, Strata Health Solutions (Moderator)

4:15pm Closing Remarks

Sherry Nicholaichuk, President, ANHIX (Alberta Health Services)

Mark Casselman, CEO, Digital Health Canada

Digital Health Canada connects, inspires, and educates the digital health professionals creating the future of health in Canada. Our members are a diverse community of accomplished, influential professionals working to make a difference in advancing healthcare through information technology. Digital Health Canada fosters network growth and connection; brings together ideas from multiple segments for incubation and advocacy; supports members through professional development at the individual and organizational level; and advocates for the Canadian digital health industry.

digitalhealthcanada.com

The Alberta Network for Health Information eXchange Society (ANHIX) membership consists of professionals with a vested interest in Alberta's Health Informatics, Healthcare Technology and Information Management industry. The ANHIX members are from all areas of Alberta with some members joining us from other provinces of Canada and internationally. Our mission is to promote information management and technology that assists, improves and sustains quality health care and to promote understanding for the exchange and the effective and efficient utilization of information and information technologies within Alberta's healthcare environment.
