A Story of Innovation: How the University of Montreal Health Centre (CHUM) became recognized as Canada's most innovative hospital

Welcome Remarks and Fireside Chat

Kathy Malas

Associate to the President & chief executive officer; Pole of Innovation and AI, University of Montreal Health Centre (CHUM)

Luc Sirois

Chief Innovation Officer, Ministry of the Economy and Innovation, Quebec

Mark Casselman

CEO, Digital Health Canada

The University of Montreal Health Centre/Centre Hospitalier de l'Université de Montréal (CHUM) has been recognized as Canada's most innovative hospital in a ranking by U.S.-based magazine Newsweek of the world's top 250 Best Smart Hospitals for 2021. Newsweek based its rankings on innovations in digital surgery, telehealth, electronic records, digital imaging and AI. Join Luc and Kathy as they take us through the CHUM innovation journey—from the decision to have an approach to innovation with a view to continuously improve their performance, to the completion of its new four million square foot downtown campus to the dramatic increase of virtual ...

A Future Where Care Follows the Person, Not the Place—It's Here Already

Symposium: hosted by Teladoc Health

Suneil Aggarwal

Vice President, Hospitals & Health Systems, Teladoc Health (Canada)

Zayna Khayat

VP Business Development & Strategy, Teladoc Health (Canada)

The healthcare experience is at a tipping point of a paradigm where care follows the person, not the place. Zayna and Suneil, the new leaders in Canada for Teladoc Health in the health system/hospital space will share how they are leveraging Teladoc's global technology platforms + data science + 50K+ medical group to enable this future, in Canada. They will draw inspiration from Teladoc Health's current partnerships with >50 of the largest health insurers, and thousands of hospitals and health systems globally in five key areas: Acute conditions—enabling patients to access any specialist or clinician, within the four walls of ...
