Concurrent Symposium: How digital enablement supports citizens across the continuum of care

Hosted by: Telus Health

Kathryn Seeley

Head of Public Sector, Canada, TELUS Health

Lisa Saffarek

Director, Virtual Care, Island Health

Mike Wong

eHealth Saskatchewan

This session will explore how digital technologies can support citizens across the continuum of care, by strengthening continuity of care, providing additional support remotely and empowering patients by putting health information into their own hands. The session will cover how the implementation of digital technologies has improved access to care, reduced barriers, and strengthened outcomes for patients, by equipping them with the information and education to better self-manage their health and wellness regardless of where they are on the continuum. To highlight these benefits, key TELUS Health partners will join the session, to share insights on their own experiences having ...

Monday, Mar 07

02:50 PM - 03:20 PM

Concurrent Symposium: Securing your data in Google Cloud

Hosted By: Google Cloud

Mike Krygier

Canadian Public Sector Engineering Lead, Google Cloud Canada

Farrah Pirani

Account Executive, Google Cloud

We know that the decision to move applications or data to the cloud ultimately comes down to the ability to trust that a provider will store, process, and manage the customer data in accordance with your preferences, and that you will be able to ultimately maintain control of data on infrastructure you don't own or manage. At Google, we recognize that your data is yours only and guaranteeing the privacy of your data is key. In this session you'll learn how Google Cloud provides a secure platform that delivers transparency and enables sovereignty. It is a foundation that you can ...

Monday, Mar 07

03:25 PM - 05:00 PM
