

Incredible Health Innovation Across Nova Scotia

- ▶ Nova Scotia Health has launched a **first-in-Canada** technology that brings together oncology information in real time
- ▶ Nova Scotia is the **first province in Canada** to implement a province-wide care coordination center
- ▶ The QEII Health Sciences Centre in Halifax, the **first-in-Canada** to use Medtronic surgical robot for spinal surgeries
- ▶ **National leaders** in mobile and virtual care options
- ▶ One Person One Record will **transform** the way physicians and clinicians work to more effectively and efficiently deliver care to all Nova Scotians.

STRATEGIC

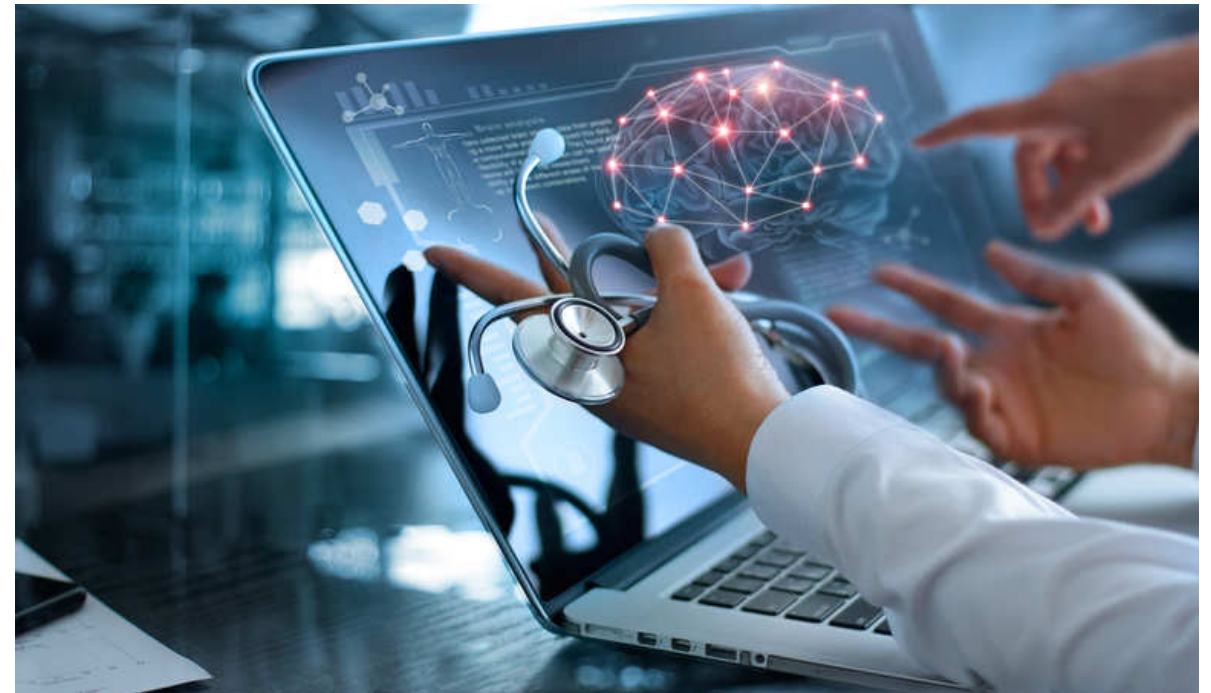

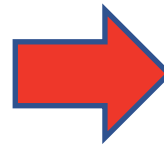

OPERATIONAL

One Provincial Health Authority, One Patient One Record, HIS Modernization
