

DIGITAL HEALTH CANADA/ANHIX

CALGARY WINTER CONFERENCE

AGENDA

8:00am	Networking Breakfast
8:45am	Opening Remarks <i>Mark Casselman, Digital Health Canada and Brinda Narayan, ANHIX</i>
9:00am	Opening Keynote This session will offer an important overview of how Alberta Health is refocusing Alberta's health care system to ensure that Albertans have access to more effective care and improved frontline service delivery. This refocused system will be a fully integrated health care delivery system that centres around four priority sectors: primary care, acute care, continuing care and mental health and addiction. <i>Quinn Mah, Alberta Health</i>
10:10am	Interoperability Panel This panel will engage in a dynamic discussion on the current state of interoperability in Alberta and across the country. Where have we seen successes? Are there lessons we learned from failures? How can we accelerate adoption? <i>Simon Hagens, Canada Health Infoway; Joy Fu, Alberta Health Services; Ewan Affleck, CPSA; Quinn Mah, Alberta Health</i>
10:55am	Networking Break
11:25am <i>Main Room</i>	Cloudy With a Chance of Innovation: Inspirational Healthcare Projects Leveraging AWS Step into a world where common healthcare system challenges meet innovative solutions. This presentation unveils a collection of inspirational healthcare projects that harness the transformative power of the AWS cloud. Explore how cutting-edge AWS technologies, solutions and services are revolutionizing patient care, streamlining processes, and redefining the future of healthcare. Join us on a journey that showcases the limitless possibilities that your colleagues from across Canada and the globe have begun to explore. Learn about some of the exciting AWS partners that have collaborated with healthcare organizations to deliver real, meaningful results. When innovation meets the AWS cloud, the forecast is a brighter, healthier and more efficient tomorrow.  <i>Erin O'Halloran, AWS</i>
11:25 am <i>Breakout Room</i>	How AHS is using AI and Automation to Improve Patient and Employee Experiences In an era in which healthcare is challenged by cost, access, and staffing shortages, Canadian healthcare providers continue to feel pressure to deliver world-class patient care with less. Join this session to hear how Alberta Health Services is leveraging AI and Automation to enhance patient care by decreasing administrative burdens and improving clinical efficiency and employee engagement.  <i>Penny Rae, Alberta Health Services and Ross Ambury, ServiceNow</i>
12:10pm	Networking Lunch
1:10pm	Artificial Intelligence in the Real World: From Concept to Impact The world is witnessing a rapid rise in artificial intelligence across many sectors, including health. Join us for an insightful conversation featuring Alberta's innovators as they share their experiences in advancing health technologies enabled by artificial intelligence into the real world from concept to impact. <i>Eleni Stroulia, University of Alberta; Abhilash Rakkunedeth Hareendranathan, University of Alberta; David Aponte, Deep Surface AI; Matthew James, University of Calgary; Sunil Rajput, Alberta Innovates</i>
2:05pm	Digital health innovations to improve access to mental health services <i>Shalini Lal, Canada Research Chair in Innovations for Youth Mental Health and Associate Professor, University of Montreal</i>
2:50pm	Networking Break
3:20pm	Closing Keynote <i>Dr. Lyle Oberg, Alberta Health Services</i>
4:20pm	Closing Remarks <i>Mark Casselman and Brinda Narayan</i>
