

DIGITAL HEALTH CANADA
AHEAD OF THE CURVE
VANCOUVER CONFERENCE

AGENDA

8:00am	Networking Breakfast
8:45am	Opening Remarks <i>Mark Casselman, Digital Health Canada</i>
9:00am	Opening Keynote <i>Ovey Yeung, Patient Advocate and Agile Consultant on integrated services – MANNA Consulting</i>
10:10am	HealthLink BC Digital Transformation <i>Emily Hamilton, Provincial Health Services Authority</i> <i>Sandra Sundhu, HealthLink BC</i> <i>Moderator: Mike Cleghorn</i>
10:55am	Networking Break
11:25am <i>Main Room</i>	Cloudy With a Chance of Innovation: Inspirational Healthcare Projects Leveraging AWS Step into a world where common healthcare system challenges meet innovative solutions. This presentation unveils a collection of inspirational healthcare projects that harness the transformative power of the AWS cloud. Explore how cutting-edge AWS technologies, solutions and services are revolutionizing patient care, streamlining processes, and redefining the future of healthcare. Join us on a journey that showcases the limitless possibilities that your colleagues from across Canada and the globe have begun to explore. Learn about some of the exciting AWS partners that have collaborated with healthcare organizations to deliver real, meaningful results. When innovation meets the AWS cloud, the forecast is a brighter, healthier and more efficient tomorrow.  <i>Erin O'Halloran, AWS</i>
11:25 am <i>Breakout Room</i>	How AHS is using AI and Automation to Improve Patient and Employee Experiences In an era in which healthcare is challenged by cost, access, and staffing shortages, Canadian healthcare providers continue to feel pressure to deliver world-class patient care with less. Join this session to hear how Alberta Health Services is leveraging AI and Automation to enhance patient care by decreasing administrative burdens and improving clinical efficiency and employee engagement.  <i>Glenn Shortt, Alberta Health Services and Ross Ambury, ServiceNow</i>
12:10pm	Networking Lunch
1:10pm	Connecting the Dots In this session, we will hear from three individuals outside of the physician space who are creating and contributing towards a better-connected patient journey. They are advocates of innovation and want to shift how we provide care currently. <i>Derrick Bernardo, Broadmead Care</i> <i>Glynda Rees, British Columbia Institute of Technology</i> <i>Jason Cridge, Cridge Pharmacies</i> <i>Moderator: Naima Salemhamed</i>
2:05pm	A Discussion on Public Private Partnerships <i>Jessica Rudd, Medtronic Integrated Health Solutions</i> <i>Heidi Giesbrecht, BC Ministry of Health</i> <i>Erin O'Halloran, AWS</i> <i>Ryan Gerard, Oracle Health</i>
2:50pm	Networking Break
3:20pm	Closing Keynote In this session, Tara will explore the potential of digital technologies, innovation, and distinctive partnerships to propel us towards an enhanced and more interconnected healthcare system. Can these elements synergize to create a future where care is seamlessly connected and optimized for improved outcomes? Join the keynote presentation to delve into the transformative power of technology and collaborative partnerships in reshaping the landscape of healthcare delivery in BC. <i>Tara McCarville, Principal – Brighton Group Health & Director – WELL Health</i>
4:20pm	Closing Remarks <i>Mark Casselman, Digital Health Canada</i>
