Rina Carlini

President & CEO, Optimal Innovation Group Inc.

Welcome to Driving the Future of Digital Health 12:00-12:10pm ET Presented by: Mark Casselman and Rina Carlini Canada's healthcare system is at a crossroads: after years of chronic underfunding, and the devastating impact of the COVID19 pandemic, Canada's healthcare system is on its knees in providing the kind of quality, personalized care that is promised by the Canada Health Act. But there is hope for a bright healthcare future in Canada, one where person-centered health and wellness is accessible to all by leveraging technology. So, what does the future of person-centered health and wellness look like? How should we, as a nation, evolve ...

Tuesday, Nov 01

02:00 PM - 02:20 PM

Networking Break

Stretch and chat

Tuesday, Nov 01

Tim Murphy

Vice President, Alberta Innovates

Closing Panel Discussion: Health Equity is the Future of Digital Health – But how do we get there?3:45-4:45PM
ETPresented by: Dr. Durhane Wong-Rieger, Dr. James Daschuk, Dr. Tarun Katapally, Susan AndersonModerated by: Tim MurphyWe live in a time of unprecedented innovation in digital health, one can call it “the digital health explosion”; yet we know there is a gap in the degree to which digital health innovation is engaging people, is accessible to all Canadians, and is producing the quality health outcomes for people. What else is needed to bring forward the best digital health innovations to ensure truly equitable ...
